TOP STORIES

NTAA's 2018 Status of Tribal Air Report is hot off the press!

Be sure to check out the 2018 STAR on NTAA's website, www.NTAATribalAir.org. This year's report emphasizes the importance of continued funding for programs important to Tribes, as well as stories from across Indian Country of successes and challenges in addressing air quality, indoor air quality, climate change, wood smoke, and more.

EPA – [Administrator Pruitt Signs Memo to Reform the National Ambient Air Quality Standards Review Process](#)

Editor's Note: standby for a Fact Sheet from NTAA on the NAAQS Review Process

Proposed Amendments to CISWI

On Wednesday, May 9, 2018, EPA's Administrator Scott Pruitt signed proposed technical amendments to certain testing and monitoring issues that were identified during the Commercial and Industrial Solid Waste Incineration Units (CISWI) rule implementation phase. This action addresses those issues and offers regulatory flexibilities to the owners and operators of the CISWI units. This proposal would also correct inconsistencies and provide additional clarification on regulatory provisions to the implementing agencies. The prepublication version of the proposal as well as a summary fact sheet are available on the web at: <https://www.epa.gov/stationary-sources-air-pollution/commercial-and-industrial-solid-waste-incineration-units-ciswi-new>

UPCOMING CALLS/EVENTS

Ambient Air Quality/EPA/NTAA/Tribes

Western Governor's Association Webinar: Partnering with Tribes on Shared Land Management Goals

WGA will host a webinar on May 30 that will examine innovative ways for federal land managers to form collaborative, cross-boundary partnerships with local tribes. Case studies will highlight work done with the Lower Brule Sioux Tribe on the Fort Pierre National Grasslands and with the Confederated Salish & Kootenai Tribes of the Flathead Nation on the Lolo National Forest. The webinar runs from 11 a.m.-1 p.m. [Register now.](#)

EPA Recent Actions

- May 8, 2018 - Registration is open for the May 30 public hearing on the proposed amendments to the Federal Implementation Plan for the Indian Country Minor New Source Review program for oil and natural gas sources. Sign up to speak [here](#).

- April 30, 2018 – EPA proposes amendments to the Federal Implementation Plan for the Indian Country Minor New Source Review program for oil and natural gas sources. [Learn more](#)

EPA Consultation Process for Tribes: Proposal to Require Full Application Package with Initial Application for Assistance Agreements in Grants.gov

EPA Lead Organization: OARM - Office of Administration and Resources Management.

Start Date: 04/30/2018

End Date: 06/22/2018

Official notification of consultation will be sent to tribal governments potentially affected by this action.

To obtain additional information about this action and other EPA consultations on going or planned. [Click here to open "published list of consultations."](#) The EPA contact for this list is [Dona M Harris](#) American Indian Environmental Office/Office of International and Tribal Affairs.

Tribal Grants Education and Technical Assistance Webinar Series Second Wednesday of Every Month at 1pm ET [For more information, click here!](#)

The Health Resources and Services Administration (HRSA) is hosting a FREE Grants Education and Technical Assistance Webinar Series for Tribes, Tribal Organizations, Indian Health, Tribal and Urban Indian Health Programs. Learn about the federal grant application process, how to write better grant proposals and evaluation plans for your projects, strategies for successful grant management, and more. Participants will also have the opportunity to connect with HRSA subject matter experts, grant reviewers, as well as peers to discuss best practices and barriers to successful grants application and management.

Webinars will be held the second Wednesday of every month from 1:00pm to 2:30pm ET - view the list of topics below:

- May 9: Writing a Competitive Grant Application
- June 13: Applying for a HRSA Grant
- July 11: Writing a Successful Evaluation Plan for Your Grant Application
- August 8: Preparing a Budget for your Grant Proposal
- September 12: Effective Grants Management/Administration & Reporting
- October 10: Successful HRSA Tribal Grantees

You must register to access the recording. Register here:

https://hrsa.connectsolutions.com/federal_grant_application_recording/event/registration.html. For more information, please contact Nancy Rios at nrios@hrsa.gov.

EPA Workshop & Webinar: Deliberating Performance Targets for Air Quality Sensors

Date and Time: Monday, 06/25/2018, 9:00AM EDT to Tuesday, 06/26/2018, 5:00PM EDT

[Click here for more information](#) from EPA's website.

National Indian Health Board Webinar Invitation: Indigenous Health in Climate Change Assessments – Overview of methods and results from Swinomish

This webinar is part of the [NIHB Climate Ready Tribes](#) project and is made possible by funding and support from the Centers for Disease Control and Prevention (CDC).

Date and Time

Tuesday, June 12, 2018 from 3:00-4:00 pm ET

*Beginning at 2:00 pm CT, 1:00 pm MT, 12:00 pm PT, 11:00 am Alaska

Presenter

Jamie Donatuto, PhD, Environmental Health Analyst, Swinomish Indian Tribal Community

Audience

This webinar is intended for anyone working in areas related to health and climate change with indigenous communities.

Learning Objectives

By the end of this training, participants will be able to:

- Describe the modified BRACE steps used in the Swinomish health and climate change assessment
- Describe methods used to complete the Swinomish project and how they may be useful for other Tribal communities

[Register here](#)

2018 Tribal Lands and Environment Forum Scheduled for August 13-16, 2018, in Spokane, Washington. “Early Bird” Registration Ends June 29; Online Registration Closes August 3.

The 8th annual Tribal Lands and Environment Forum (TLEF) will be taking place at the Spokane Convention Center in Spokane, Washington, August 13-16, 2018. This year's forum will feature special trainings, field trips, and breakout sessions focused on the conference theme: A National Conversation on Tribal Land and Water Resources. Topics highlighted at the forum include solid/hazardous waste management, brownfields, UST/LUSTs, Superfund sites,

and emergency response. Tribal water program topics – water quality, drinking water, and habitat restoration (including wetlands, streams and fisheries) will also be included with breakout sessions, trainings and field trips. Please visit the TLEF conference website at https://www7.nau.edu/itep/main/Conferences/confr_tlef.

Navajo Nation EPA is pleased to announce their environmental conference is set for Wednesday, June 20 to Friday, June 22, 2018 at the Twin Arrows Navajo Casino Resort, in Flagstaff, Arizona.

For more information about the conference, please visit www.navajonationepa.org.

This year's environmental conference includes an 8-hour Hazwoper Refreshing Training at a discounted conference price provided by ACME Environmental on Thursday, June 21. Advanced registration is required.

The NASA Health and Air Quality Applied Sciences Team (HAQAST) is holding their annual meeting in Madison, WI on July 16-17:

<https://haqast.org/next-meeting/>

One of the goals of HAQAST is to connect air quality planners with NASA data. The HAQAST researchers have engaged in several projects to demonstrate how data derived from satellite platforms could be used by state air agencies.

Satellite data are becoming critical technical support components for demonstrating the air quality impacts of international transport, exceptional events, and interstate transport... issues that have been at the forefront of our recent discussions. I will be leading a panel at the meeting on how NASA-sponsored research can better serve air pollution planning agencies. Having state perspectives involved in this discussion would be very valuable.

Registration is open now and NASA is accepting applications for travel support on an as needed, first-come basis.

2018 Navajo Nation Sustainability Symposium: Nahasdzaán dóó Yádilil

August 14-17, 2018

High Country Conference Center & Northern Arizona University, Flagstaff, AZ

Hosted by: The Office of Navajo Government Development Commission on Navajo Government Development

Information: ONGD staff at (929) 871- 7214 or email ekdee@navajo-nsn.gov

NTAA Upcoming Calls. The toll-free number is 1-800-309-2350. If you do not need to call toll free, or would like to help conserve NTAA funding, you can call 1-805-309-2350. Both numbers use code 928-523-0526#.

Contact Andy.Bessler@nau.edu if you have any questions about any call!

Registration instructions When you register for the GoToWebinar, please remember to include your Tribe, Region, or Organization in parenthesis after your last name. This allows you to see everyone on the call and prevents us from conducting a roll-call, ultimately saving everyone's time.

Indoor Air Quality Work Group: Help implement IAQ priorities and develop webinars	Will take place during NTFAQ
EPA Policy Update Call: Receive updates from EPA	Thursday, May 31, 2pm ET
Wood Smoke Work Group: Join this newly formed work group to help address air quality issues arising from wood smoke	Wednesday, June 6, 3pm ET <i>Note: this work group has a different call-in number. Please contact Andy Bessler for information.</i>
Volkswagen Settlement Work Group: Continue to track the ongoing developments and help guide the process	Thursday, June 7, 2pm ET

The Institute for Tribal Environmental Professional's (ITEP's) [Tribes and Climate Change Calendar](#) includes conferences, trainings, webinars and other events related to tribes and climate change.

ITEP's [2018 AIAQTP Course Schedule](#)

Course Title	Dates	Location
Management of Tribal Air Programs and Grants (lower 48)	June 5-7	Flagstaff, AZ
Building Performance: Improving IAQ in Cold Climates	Open	Online

Residential Building Science Review	Open	Online
Radon Fundamentals	Open	Online
Quality Assurance (QA) Fundamentals	Open	Online
Quality Assurance Project Plans (QAPP)	Open	Online
Emissions Inventory (self-paced, instructor assistance as needed)	Open	Online

Note: This schedule is subject to change. [Click here](#) for up-to-date information, course descriptions, and applications. If you have questions regarding the pre-requisites or your eligibility for a course, please contact Patricia Ellsworth, Air Quality Curriculum Coordinator, at Patricia.Ellsworth@nau.edu or phone 928-523-6721. For more information, please visit [ITEP's website](#).

Webinar May 16 - BroadbandUSA Technical Assistance to Rural Communities

[According to the FCC's 2018 data, 25 million Americans and 31% of rural Americans do not have broadband](#) available to them. The BroadbandUSA Technical Assistance Team has devoted time to working with providers and local government officials to improving broadband infrastructure in rural communities.

For example, the team assisted a community in rural Alaska by providing solution- and technology-neutral advice on many issues, including market assessment, revenue modeling, construction schedules, and specific steps that the local government can implement to assist private providers speed up deployment and expansion of broadband infrastructure. A town in Virginia requested assistance during the implementation process of a new land mobile radio (LMR) public safety system. In Maine, the team provided feedback to a remote community during its Request for Information (RFI) development to attract potential broadband providers. On a regular basis, the team provides assistance to support infrastructure and digital inclusion planning, funding, and implementation efforts.

May 16, 2018 [BroadbandUSA Practical Broadband Conversations Webinar Series](#): Infrastructure Week Special: Successful Models and Best Practices for Rural Broadband Deployment. The BroadbandUSA Technical Assistance Team is looking forward to serving more rural communities through building partnerships. Contact them at broadbandusa@ntia.doc.gov .

Climate Change / Energy

Climate Change Adaptation Planning In-Person Training: June 5-7, 2018, Glennallen, Alaska

The Institute for Tribal Environmental Professionals is excited to be collaborating with *Copper River Native Association* on an *Introduction to Climate Change Adaptation Planning* course. This course provides an overview to planning for climate change impacts, highlighting the work of several tribes.

If you are interested in applying for this course, please fill out the online application form at <http://www7.nau.edu/itep/main/tcc/Training/Trainings>

*If you are unable to complete the online form, please contact us for a form to be sent to you which you must sign and return as an attachment (*PDF format preferred*) by email to Colleen.Davis@nau.edu or by fax to ITEP at 928-523-1266 to the attention of *Colleen Davis*. Applications received by Friday, May 04, 2018, will have priority consideration.

U.S. EPA ENERGY STAR Webinars

May 2, 9, 16, 23, and 30, Noon (ET) – Portfolio Manager: Ask the Expert

Most Wednesdays ENERGY STAR holds a live webinar that gives all Portfolio Manager users an opportunity to ask their questions directly to EPA experts in an open forum. [Register](#)

May 16, 12 PM (ET) – Just Add WaterSense to Your Energy Efficiency Efforts

Join this webinar to learn how to incorporate water into your energy management activities by assessing your facility's water use and identifying areas of water waste. Find out what it takes to make your building more water-efficient from simple, low-cost changes to larger-scale improvements and how WaterSense tools can help you start maximizing your savings and building performance. [Register](#)

May 23, 1 PM (ET) – Best practices for deploying electric vehicle (EV) charging stations at commercial buildings

Electric vehicle (EV) charging stations are a standard feature at green, sustainable buildings due to progressive workplace policies and growing demand from employees and tenants. This webinar will provide a high-level overview of the EV charger market and will provide examples of best practices to consider for commercial installations. [Register](#)

VW Settlement Over-Subscription Telephone Session

On May 10, 2018, the U.S. Department of Justice issued a letter to tribal leaders with an update and proposed modifications to address the over-subscription of funding for the first and subsequent rounds of funding for Tribal Beneficiaries in the Volkswagen Environmental Mitigation Trust Agreement. The U.S. Department of Justice and the U.S. Environmental Protection Agency are inviting tribes to a third telephonic session to discuss the proposed modification issued in the letter to tribal leaders.

Schedule: The schedule for the third telephonic session and for providing any written comments is as follows:

Monday, May 21, 2018: Discussion Session 2:00 pm Eastern.

- Link to register for the call and receive the call-in information:
<http://dpreregister.com/10120428>
- Those without internet access or unable to preregister may dial in by calling:
1-866-777-2509 (toll free)

Monday, July 2, 2018 is the deadline for written comments.

Indoor Air Quality

Gordon Research Conference on the Microbiology of the Built Environment

July 15-20, 2018

University of New England, Biddeford, ME, USA

Topics covered include

- How the building microbiome impacts the human microbiome
- Viruses in buildings
- Building microbes, allergies and asthma
- Mold in buildings
- Pathogens in premise plumbing
- Control of microbes in buildings
- New methods for pathogen detection

More [information and registration here](#).

E-Enterprise releases report about Data Standards for Continuous Monitoring Data

E-Enterprise for the Environment recently released the [Data Standards for Continuous Monitoring Data: An Evaluation and Recommendation](#). The report evaluates existing data standards that meet the needs of EPA, state and tribes. The report (1) helps government agencies use advanced monitoring data in existing and emerging programmatic and regulatory frameworks, (2) increases awareness of the importance of data quality and its impact on the usefulness of the data; and (3) increases the ability to leverage data collected by citizens and others due to the increased transparency of data quality. The Data Standards Team for the E-Enterprise Advanced Monitoring project wrote the report and are planning to develop a sensor architecture to support the management of disparate and high-volume data.

E-Enterprise for the Environment is a working model for collaborative leadership among EPA, state, and tribal environmental co-regulators. Look [here](#) for more information on the advanced monitoring project, specifically.

EPA Releases Mobile Version of EPA's EJSCREEN

EPA recently launched its new mobile device optimized version of EJSCREEN, the Agency's nationally acclaimed environmental justice screening and mapping tool. This mobile version makes accessing EJSCREEN easier than ever. This new mobile version contains the same key functions and features as the full version of the EJSCREEN tool in a more compact layout. This includes the ability to select locations, access reports, and to map environmental, demographic and EJ indicators. EJSCREEN was built as an online computer tool for EPA staff to look at environmental and demographic factors related to environmental justice as we develop programs and policies that impact low-income, minority, and other overburdened communities. However, it was built for use on standard desktop and laptop computers. The Agency found that this desktop format is not always accessible to many stakeholders working in environmental justice communities. After we released EJSCREEN to the public, we received feedback that the tool could be more mobile device friendly. In addition, website analytical data showed that more than 50% of users accessed the EJSCREEN tool from a mobile device. As a result, we developed this mobile version to be responsive to our user's needs.

In addition, EPA will continue to make enhancing EJSCREEN based on feedback a top priority.

- For more information on the mobile version of EJSCREEN, please read the blog: <https://blog.epa.gov/blog/2018/04/ejscreen-coming-to-a-phone-near-you/>.
- For more information on EJSCREEN: <https://www.epa.gov/ejscreen>.

Salish Kootenai College would like everyone to know of their new programs available such as Health Promotion Practices Associate Degree, Grant Projects Management Associate of Arts Degree, Grant Projects Assistant Certificate, and Hazardous Material Management/Environmental Technician Program. *For more information [please click here](#).*

EPA Tools and Resources Webinar Series

Usually held the third Wednesday of every month from 3:00-4:00 PM ET
Who should attend? Representatives of state environment and health agencies, tribes, local governments, communities, and others interested in learning about EPA tools and resources available to help inform decision-making.

[Access past webinars and learn more here.](#)

No-Cost Technical Assistance from DOE

The DOE Office of Indian Energy provides federally recognized Indian tribes, including Alaska Native villages, tribal energy resource development organizations, and other organized tribal groups and communities, with technical assistance to advance tribal energy projects at no cost. Technical experts from DOE and its national laboratories, along with other partnering organizations, provide support to assist Indian tribes and Alaska Native villages with energy planning, housing and building energy efficiency, project development, policy and regulation, resilience, and village power.

For more information, visit the on-request [technical assistance description](#).

Application deadline is May 25, 2018

Indoor Air Quality

Information on State IAQ Laws and Policies—Environmental Law Institute

Have you ever wondered what your state's IAQ laws or policies are? The Environmental Law Institute (ELI) has a wealth of information on how states are addressing long-standing and emerging indoor air quality (IAQ) issues. ELI's materials on IAQ are all available *free* at www.eli.org/buildings, ELI's portal for its Indoor Environments and Green Buildings Program. From the portal, you can browse among general topics or choose a type of publication

Available On-Demand: Linking IAQ, Energy Efficiency, and Preventive Maintenance

The webinar "Making the Connection: Linking IAQ, Energy Efficiency, and Preventive Maintenance Together for Healthy Schools" can now be [viewed online here.](#)

This webinar will demonstrate how to—

- Explain the critical connection between IAQ, energy efficiency and preventive maintenance, as well as the importance of properly integrating them for optimal occupant health and building performance during a renovation project.
- Use resources to help with energy efficiency and preventive maintenance efforts, including the Energy Savings Plus Health guide and the accompanying Interactive Air Quality Planner for Schools that helps you create a custom verification checklist for both your building upgrades and concurrent IAQ assessment protocols for each step of the upgrade process.
- Use a case study from a school district on getting started using these resources to create healthy indoor learning environments.
- Start or improve a preventive maintenance program to include IAQ and energy efficiency components as part of a comprehensive building management approach.

You can also download the [“Energy Savings Plus Health: Indoor air Quality Guidelines for School Building Upgrades”](#).

Be sure to sign up for [EPA’s Healthy Indoor Air newsletter](#).

The Makah Tribe is hiring an Environmental Division Manager

Closing date: May 16, 2018

[More information can be found here.](#)

Fort Independence Indian Reservation is currently accepting applications for a Water Quality Specialist

Closing date: May 24, 2018

Contact Mike Jimenez at 760-878-5160 for more information

The U.S. Institute for Environmental Conflict Resolution (U.S. Institute) is seeking a Senior Program Manager to lead it’s Native American and Alaska Native (NAAN) program area. The preferred location for this position is Tucson, Arizona, although highly qualified remote candidates will be considered.

The U.S. Institute is part of the Morris K. Udall and Stewart L. Udall Foundation, an independent executive branch agency that promotes leadership, education, collaboration, and conflict resolution in the areas of environment, public lands, and natural resources.

This is a full-time, permanent, federal position in an excepted service appointment. Compensation and responsibilities for this position are comparable to that of a GS-14 in a competitive service appointment. Extensive travel may be required. **This position will remain open until May 21st, 2018. A position description with required qualifications is linked below.**

<https://www.udall.gov/News/NewsAndEvents.aspx?Item=7153>

If interested, submit a cover letter, resume, writing sample, and three references to:

Brian Manwaring, Director

U.S. Institute for Environmental Conflict Resolution
